* Vaishnav Parivar is joining hands with Mandir to form "Shriji Mandir"

Why you should help the Shriji Mandir?

1. It's your local Shriji Mandir. Shriji Mandir provides the opportunity to personally serve God with Deity worship to support your religion, Sanatan-Dharma
2. It's your religious duty to give at least 10% of your income in charity
3. The Mandir is fully accountable for everything, all accounts are available for inspection. Shriji Mandir is managed by trustworthy and reputable devotees
4. Based on the infallible Law of Karma, what you have now is due to your past donations, what you give now, you will get back in the future with very high interest
5. Helping to buy a Temple property is one of the highest Bhakti items

"A Person who builds temples is blessed. Even if one merely thinks of building temples, the sins of a hundred lives are forgiven. A builder of a single temple goes to heaven (svarga). A builder of five to shivaloka, a builder of eight vishnuloka and a builder of sixteen temples is freed from the shackles of being born again and again. What is the point of earning money if one does not build temples? Money is also meant to be donated as alms to brahmanas, but the punya or merit earned from building a temple is greater than the punya earned from donating alms." (Agni Purana, 10.4.1).

Please hand this completed form to a management personnel now or mail to Mandir.
